

TABLE OF CONTENTS

1. Introduction.....	1
2. Requirements Specification.....	4
2.1 Requirements.....	5
2.2 Prior Examples of Requirements Verification	6
3. Design Description.....	8
3.1 Design Background of TOUGH2 Modules.....	8
3.2 Structure and Architecture	8
3.3 Physical Processes and Approximations.....	15
3.4 Mathematical and Numerical Methods.....	17
3.5 Array Structure and Handling	24
3.6 Linear Equation Setup.....	25
3.7 Dimensioning of Major Arrays.....	27
3.8 Equation-of-State Modules	27
3.9 Specification of Flow Geometry	29
3.10 Initial Conditions and Restarting.....	29
3.11 Boundary Conditions.....	29
3.12 Software and Hardware Considerations	30
3.13 Performance Requirements and Design Constraints.....	30
3.14 Future Developments.....	31
3.15 Verification of Design Description.....	31
4. Software Validation Test Plan and Report.....	33
4.1 Validation Test Plan	33
4.2 Validation Tests	34
4.3 Summary.....	46

5. Software User Documentation.....	49
5.1 Installation Procedures	49
5.2 Hardware and Software Operating Environments	49
5.3 Input and Output	49
5.4 User Features.....	51
5.5 Summary.....	52
5.6 Version History	52
Acknowledgements.....	52
References	53
Appendices	56
Appendix A. Mass Balances (EOS1G)	56
Appendix B. Space and Time Discretization	57
Appendix C. Module Sample Problems	60
Appendix D. TOUGH2 Modules Read.Me File	71
Appendix E. Nomenclature.....	76
